

The map pictured below is marked: Lydia K. Graybill, age 13. At this time, we don't know a thing about Lydia or who placed the map at the museum's door, obviously as a gift. It would be nice to know the year Lydia was born and something about her family.

HMPF also received the above group photograph and it is now preserved in our archival records. We are hoping to be able to identify many of the company employees that attended the 1923 picnic held by Hershey Machine & Foundry at Wenger's Woods.
